## Lack of Resilience Index:

Lack of Resilience represents the combination of susceptibility to impact and the relative inability to absorb, respond to, and recover from negative impacts that do occur over the short term. Japan ranks 140 out of 165 on the Lack of Resilience index with a score of 0.24.

Japan ranks 140 out of 165 on the Lack of Resilience Index. Based on the sub-component scores related to Vulnerability and Coping Capacity, the three thematic areas with the weakest relative scores are Recent Disaster Impacts, Marginalization and Environmental Capacity.

## **Population Data:**

**Populated Areas:** 

2011

Total: 56, 144, 312 Max Density: 41, 427(ppl/km<sup>2</sup>)

Sendai - 500,000 to 999,999
Tokyo - 5,000,000 and greater
Kawasaki - 1,000,000 to 4,999,999
Yokohama - 1,000,000 to 4,999,999

**Risk & Vulnerability** 

Additional information and analysis is available for Disaster Management Professionals. If you are a Disaster Management Professional and would like to apply for access, please register here. Validation of registration information may take 24-48 hours.

#### **Multi Hazard Risk Index:**

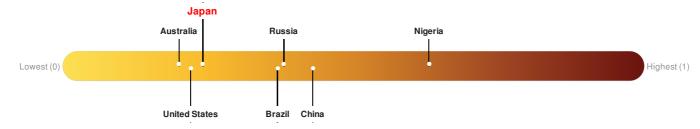

Japan ranks 81 out of 165 on the Multi-Hazard Risk Index with a score of 0.49. Japan is estimated to have relatively very high overall exposure, low vulnerability, and very high coping capacity.
