Situational Awareness

Additional information and analysis is available for Disaster Management Professionals. If you are a Disaster Management Professional and would like to apply for access, please [register here](#). Validation of registration information may take 24-48 hours.

Current Hazards:

Active Tornado				
Event	Severity	Date (UTC)	Name	Lat/Long
		23-Jan-2017 03:02:33	Tornado - Melbourne, FL WFO Region, US	27.39° N / 80.62° W
		23-Jan-2017 03:02:30	Tornado - Tampa Bay Area, FL WFO Region, US	26.73° N / 81.86° W
		23-Jan-2017 02:59:39	Tornado - Miami, FL WFO Region, US	26.18° N / 80.85° W
		23-Jan-2017 02:31:36	Tornado - Melbourne, FL WFO Region, US	28.41° N / 80.67° W
		22-Jan-2017 21:45:49	Tornado - Tampa Bay Area, FL WFO Region, US	27.62° N / 81.88° W

Lack of Resilience Index:

Lack of Resilience represents the combination of susceptibility to impact and the relative inability to absorb, respond to, and recover from negative impacts that do occur over the short term. There was insufficient data to determine the Lack of Resilience Index score for **The Bahamas**. **United States** ranks 149 out of 165 on the Lack of Resilience index with a score of 0.22.

There was insufficient data to determine the Lack of Resilience Index score for **The Bahamas**.

United States ranks **149** out of **165** on the Lack of Resilience Index. Based on the sub-component scores related to Vulnerability and Coping Capacity, the three thematic areas with the weakest relative scores are Recent Disaster Impacts, Environmental Stress and Economic Constraints.

Risk & Vulnerability

Additional information and analysis is available for Disaster Management Professionals. If you are a Disaster Management Professional and would like to apply for access, please [register here](#). Validation of registration information may take 24-48 hours.

Multi Hazard Risk Index:

There was insufficient data to determine the Multi Hazard Risk Index score for **The Bahamas**.

United States ranks **121** out of **165** on the Multi-Hazard Risk Index with a score of 0.41. United States is estimated to have relatively high overall exposure, low vulnerability, and very high coping capacity.
